Mar. 15, 1970  
Sunday

Jmelda feels calamity has befallen us because she cannot control Boy boy who does nothing but play with his friends to the prejudice of his schooling. He has lost his star, missed two days home work and stayed up tonight with his two friends Stefan and Noel feeling around in his room. It has reached the stage where I have warned him that I will throw his friends out of the palace if they are overstaying. But I feel that the boys' will power has not developed enough.

The Tondo squatters demonstration for today did not go through as I convinced the leaders in Tondo and Manila and the priests with the Council that it is not necessary for me to give the land in the Tondo franchise to the people who are entitled to it. Manila Elvilde claims he was the one who dissuaded the people and that even Father Murphy was agitating the people to demonstrate. The talk about Elvilde being true as it was Father Murphy who was dissuading the Tondo people from demonstrating. It is a case where the people are caught between two men who want to get the honors of improving Tondo.

The SOWBSCOM Hq. has been burned in Zamboanga. The Pamantasan ng Maynila was bombed by some armed persons. A bus exploded because of a load of dynamite killing a probationer and wounding others. All have to prepare for any contingency.
