Office of the President
of the Philippines

12:20 AM

It seems clear now that the demonstrations and riots are engineered by the Liberal Party, Commander Dante and the Lopezes. The affidavit of a student ^{Willeto} ~~Barber~~ alludes to seven meetings in the office of my opponent ^{Comrade} and Liberal Party President Perry Roxas where these events were planned.

If this is so, then the riots will continue and the threat of Adevaso to kill me and my entire family is no empty boast.

But we must calm everybody down as the rumours of a revolution are widespread and the rich in Forbes Park have fled their beautiful homes. I have told the PA Commander ^(New Dato) to patrol Forbes Park.

After the calm, we can then attend to the enemies of the Republic one by one.

Pressure must be put on Dante so he will not be of help to the Liberals in Manila. Perhaps we should get Sumulong to give Dante a work out to keep him busy or eliminate him. Will tell the military this.

Then we must develop the case against the Liberals and the Lopezes so we can proceed against them legally.

But we must move fast as the Liberals have set their target date and the Communists Jan. 1971. ^(the latter opportunity) ^{accepting to} ^{Willeto} whom I saw secretly at Pangasinan tonight.
