The threat to turn the funerals of the four dead students into a mass rally has failed so far as the parents of the victims refused to allow the dead bodies to be further utilized to inflame the youth.

There is comparative quiet although there was a scare of the students entering and burning the fashionable villages of Forbes Park, Ardena, Angellanes etc and the rich residents have evacuated. As Teddy Socsin said quoting the good book "the guilty flee where no one pursues" while the innocent are held as lions.

With the statements of the young student leader Villalon and the former CPS chief - Joe Maratek, I am now convinced that the Liberal Core planned and organized these demonstrations in preparation for an alleged revolution.

We must ~~unmask~~ these would be anarchists hiding behind children.

And now Jerry Aquino, Manny Palay, and even Jay Laurel have started to discredit the Armed Forces. They delivered their privilege speeches yesterday.
