 We have many difficulties on the reconstruction because we have to make an inventory, valuation and consider the legitimes of the children. And there are some assets that may not have been included in ~~the~~ statements of assets and liabilities. They have to trace them, account for them and pay the necessary taxes if any.

VP Lopez promised to stop that libelous book about Imelda. I told him that Davarro Pedrosa was saying that the Lopezes had directed her to write the book. (Perhaps Jimmy but not Ferdinand who is naive) She (Chit Davarro Pedrosa) tried to blackmail us by demanding \$500,000 and a reparations vessel plus the return of \$200,000 from Cesar Samson allegedly extorted during his Reparations Mission days.

In the open house Don Quirino Paredes who is probably 89 and Sec. Sotero Baluyut who is 82 lived up with the public to greet us this year. The politburo members were released yesterday and they arrogantly say they are still communist. They have to be watched. Asked Mr. Tanabe to demobilize all civilians who are working in the fight against the NPA in the 1st PC Zone.

I have ordered the BIR to look into the books of the stock brokers of the markets and Manila stock exchanges. This may depress the market.
