I have just come from Rizal Stadium where I opened the Asian Football Youth Tournament. There are 16 competing teams and the Tuzla Abdul Roman cup is at stake. Our team tied with Laos in a fast-paced game that saw the hosts ahead at 4 minutes to the end of the last half then a Thai goal in two minutes and on to a tie.

There was an Intensity II earthquake on the second game of Korea vs. Thailand, the two roughest teams in the tournament as Bong Bong calls them. Korea won on a disqualification of the team for alleged Thai malicious fouls.

Signed the Proclamation on the Negros Occidental Agricultural Community Development project this morning. It sets aside 756 hectares for development by the Filipinas Foundation of Enrique Zobel.

Incidentally he (Enrique) told me that Jacinto who removed as Executive Secretary handed over to Juvay Aquino two duffel bags of documents — according to Juvay. Since Juvay is a "congenital liar" this is untrue and what he has Jacinto or anyone to reveal. But Juvay claims he has photographs but that Adlan Junior got back the duffel bags when Jacinto was appointed Commerce Secretary — congenital implying that I was blackmailed into it which is a lot of hogwash as usual from Juvay. But I can see that the Zobels do not like Jacinto. Or more accurately, Juvay Aquino is worried I am building up Jacinto for President which is of course not true.
