Malacanang

The Kabataang Makabayan has gone to the provinces to "learn from the people" - actually teach us. In Arayat, the police (municipal) arrested the UP Collegian editor ~~for~~ and others for showing a Red Chinese film without permit. This group issued a statement through the media that they were brought to Camp Olivas and beaten up. The truth is they were in the custody of the Arayat police all the time and were not touched at all.

There should be immediate counter-action by the local leaders against these communist teach-ins.

1. Let us locate some anti-communist films showing what the Hukos have done and intend to do
2. Prepare propaganda leaflets for distribution. We can start with my letter to my children and the premier
3. The political leaders must now be taught how to conduct their own teach-ins.
