Malacanang

11:13 P.M.

Have just had dinner with the children while  
Jocelyn had dinner with Sandy and Cecille Jansen. A lot  
of rubbing and grunting with the children. Jene reported that  
her mother "is the biggest cheater in the jaw Doro exercises".  
In the sit-ups from lying on the back, she pushes up with  
her hands on the floor. On the landing to touch the toes  
opposite the touching hand, she spreads her legs as wide  
there is no effort to bend etc etc. They were all good-  
naturally reporting to me that after the ladies go through the  
exercises, they order all kind of food from the restaurant  
"so now monkey has gained one pound" and all of them  
have big lips. Jolly writes "That is bigger than my  
chest at 3 inches & somewhat. Bong-bong proudly claims  
that he has only six inches to catch up with me - which  
the girls in a chorus questioned. A jolly good time - then  
my Barber and dentist, the latter working on the teeth  
left by the Japanese Kawarai in Fort Santiago.

Ordered the HBI, the C15, PC and Metrocom to  
give support to the investigations of Rep. Pablo Ocampo  
on vice and corruption in the city which involves the mayor  
and his brothers, police officers and clerics - as well as  
an area commander of the Metrocom, Lt Col. Calderon who  
has asked to be relieved.

Just night there was a story that Commander  
Dante was in the Far Eastern University Hospital for slipped  
disk - but negative results of a check.  
We must reevaluate the assignment of highly  
trained squads to track down and get back with commander.  
The squad leader who is a highly trained officer should do  
nothing but think and act on his mission.
