I write this on the 3rd as we were busy up  
to 1:30 AM last night and after that I fell asleep late  
up at 5:30 but went back to bed till 8:00 when  
Ginelda and I talked in bed about all the things we and I  
had been through together since we were married in 1954  
when I was not a congressman. We agreed we had been well  
blessed by God. She was concerned about Bongbong going to  
England and how we would miss him. When I jokingly  
asked her what she would do if he brought home a child  
with an English mother, she said seriously and intensely —  
"keep the child but not the mother." She thought that  
we would then have a child to play with. I jokingly  
asked why she felt that way about her son but not about  
her husband, she said, "I love you so much I would be  
willing to allow you to have a child by another woman if  
you wanted it so much, but I have to be there and you must  
do so not because of love for the woman. Of course we both  
laughed the thought off with unanimous assurances of love.

GAF day at 9:00 AM May 2nd was late 20 min -  
minutes, got out at the Blue Train and demonstrated their  
precision playing at 11:00 AM. Went to say good bye to  
those leaving for abroad. Had a light lunch, assurances of  
mutual trust and then arrived at Pier 15 at 2:05 PM  
but had to wait for the jewelry of Gilda left behind at the  
Place by Lucy. Finally cost of Pier 15 \$30.00. Slept  
at 3:00-5:00 PM, practiced golf at 6:00-7:00, exercised  
up to 7:30, message from 8:00-9:30 actually Bongbong and I  
were talking about the items he brought along and the hunting in  
shirts. Dinner at 10:45 PM.
