MALACAÑAN PALACE

MANILA

Have a TV-Radio interview at 4:00 PM
on 1. The Relief and Rehabilitation work
2. The Progressive Car Manufacturing Program
3. Gen. Daniel George (I mistakenly referred to
him as from Japan but I later corrected myself
4. The exchange of military information with Indonesia
with the visit of Gen. Maraden Panggabean, the
Minister of State for Defense and Security and
Vice ^{Commander in Chief} Chief of the Indonesian Armed Forces

I announced the decision to sustain the
BOI to have the five ^{main} bidders,
Ford, Gen. Motors, Chrysler-Kentonbroski, Volkswagen
and Toyota, there being no argument or evidence
to alter the BOI decision. But any of them
which does not comply with its proposal of any
given year will be immediately disqualified that
year.

AP man Gil Santos will carry the story
of the Indonesian government furnishing information
on Jose Maria Sison and the PKI (the Partai Komunis
Indonesia); how Sison received donations, has no
support from Indonesia. Even the constitution of the
non-Communist Party of the Philippines was drafted
or approved in Indonesia. Darki was the contact.

MALACAÑAN PALACE
MANILA

Man...

We are working on the pine tree forest
in Davao and Cotabato for pulp. It may be
300,000 hectares instead of 100,000

And the long-fibered pulp may be good
for rayon, not just newsprint.

And looking for warble in Tawag, Bulao,
Palawan and Irala. Even Marking Agustin,
my locayong balictad offered some warble in
Tawag.

I enclose the papers for the interview
in Envelope no. XXXIV-4.
