11.15 AM - Coordinated the BTTI and PTTA boards. Placed funds (P6.5 million) at the disposal of the BTTI, only quarrels are ^{stymie by our forest promotion plans}

12.15 AM - Met the Mayyan delegation from Mindoro Oriental with Gov. Anchi and Cong. Saids. They want reservations for their tribes which I ordered to be segregated by the Bureau of Forestry and the Bureau of Lands. They came in G-string and colorful tribal dress into the reception hall of the palace. Beneath the huge chandeliers they posed incongruous and unbelievable.

many provisions like total sterilization of the
proceeds, applicability immediate in the food
Tayer experts and the rest only after that day.
These must be removed in the conference tomorrow.

We have located the address of Arthur
Bach who is actually the operations officer of the
San Jose Timber Co. of Jim's Sheff and his
wife at the source of the Catubig River northern
Luzon. The training ground set up by someone
is close to there. And there you will be seen, our
asset perished in one of the falls of the river, so
he is under suspicion. We will now look into
the operations of Jim's Sheff who has sold ~~the~~ his
house to the Brandy the partner of Macada in
their reparations influence peddling. They made money
on the items procured by PAF of which Macada
was the head. They have collected already

\$400,000.00.
But Jim's Sheff has plenty of money and
no apparent source. He is probably engaged in
smuggling.
