I decided to call Sen. Dan Inouye
to seek his help, today. It is guaranteed that
our house in Presy. Lake has a long distance
telephone that can reach any part of the world.
Sen. Inouye was in Washington when I arrived
at 2:00 PM from the inauguration of the concrete
road from San Mateo to Pangasinan to Espante and
then on.

Sen. Inouye seemed glad to know
that we were in the verge of an agreement
and seemed eager to help when I told him
that our only possible alternative was the increase
of our annual allowance from \$15,000 to
\$20,000.

It was about 1:00 PM in Washington
and yet he was as energetic as ever.

He promised to work on it directly with
the State or Defense Dept and the President as soon
as it was working there and to call us up.
