

Office of the President

Falton Blanco on a visit to Alex Dela Cruz
alleged that the laborers and students are
planning to blast the fuel tanks of the oil
companies if the gasoline price is increased (which
it has already).

I feel that this particular front is trying
to earn a reputation as a violent radical front
for the nation and the publicity.

But if there is any massive sabotage, I
will have to suspend the privilege of the writ
of habeas corpus.
