MALACAÑAN PALACE
MANILA

Mzee left by PAF for San Francisco and Monterey's Sta Catalina School run by the Benedictine nuns. She will be coming back for the Christmas holidays.

She was in such a hurry that we did not give her any cash nor get her telephone number. But she should be able to manage.

Played golf with Hon. Herson Panggabean, Indonesian Minister of State for Defense and Security and Vice Commander in Chief of the Indonesian Air Force — at 6:30 P.M. — teeing off from across the Pasig on Tee No. 1. He lost the first ball in the water and crossed on the second.

Amb. Mount Nolan brought us the sugar act of the U.S. which provides that in case of expropriation of American property without compensation, the sugar quota can be suspended or a \$20 per ton levy imposed by the U.S. President.

I have called the sugar industry leaders to a conference on Wednesday.

MALACAÑAN PALACE

MANILA

Directed that the MIA men (Customs, Mr. Juan Luis Taberna and CAA Adm. Angson) stop the practice of allowing non-passengers to enter the area of the departing or arriving passengers. This because of a stowaway in one of the foreign planes and the complaint of the international pilots that we are not taking precaution against possible hijacking.

The propagandists of the Communists - among them Sen. Ramon Muzra keep insisting that the terrorism and the bombings by the leftists and subversives are perpetrated by the AFP to condition the people to martial law.

I told Sen. Muzra today that the Bulletin News Editor, Antonio Zurel, is one of the three propagandists of the Communists. I told him that the two others are with Chronicle and Taliba (without mentioning Granada and Tadal of those newspapers). He admitted that Zurel was a Red. I must design my aide, St. Col. Zurel his brother.
