Just played golf with Bobby and message. Then a briefing by Col. Ver on the Adevero plot on a coup d'état. All team leaders for the kidnaping or assassination of Inceda, Raval, Ablan, Cruzologo identified. But that for me as yet remains unknown to our asset Col. Jose Maristela. Adevero may be replaced by Gen. Sanchez as the leader of the operation. And there will be a big nation-wide rally on June 19th where they will have filler, looter and stealer as well as arson groups. Fuel will be distributed to the squatters in Iloilo.

But what surprised our asset was that Jimmy Propingco brought him to the VIP Bldg. where the others (Daga, Sanchez, etc) except Adevero were and in a few minutes Osmeña came into the room and asked to be briefed on the progress of the respective conspirators. Osmeña is quoted as saying that Byroada is sympathetic. Salonga is supposed to be in the plot. This places a new and dangerous aspect to the plot. Because for the first time, Osmeña is confirmed as the master mind and the financier of the plot. We must know the man assigned to assassinate me. And the other participants of the plot. But we must be quiet until it is necessary to move.

Went to Bataan by 777 after receiving the US Secretary General at 7:00 AM. He stays with us as our official guest. Returned at 1:00 PM to arrive at 4:30 PM. Met labor leaders on the minimum wage at 5:00 PM. Will meet the chamber leaders tomorrow morning. Then a joint meeting of the congressional leaders and labor leaders on Monday with me.
