June 13, 1970

June says that an American of about 25 years of age had a crush on Bongbong in the jumbo jet 747 and last night the Japanese girl at the Osaka restaurant asking their sukiyaki complimented him for his good looks. I told him tonight over the telephone that he was getting swell-headed.

The children left Hongkong by jumbo jet as Pan-Am has a jumbo flight every day that leaves at 9:00 AM Hongkong time which is one hour ahead of Manila. They arrived at 12:45 PM but landed at 1:05 PM. They stay at the new Imperial Hotel. They had a rough trip. Up to now it is still raining in the Philippines as it did yesterday even in the making of the glades at Pinal Park. And the children say that the landing was like a house coming down in an earthquake.

Had a mini-meeting in the USAFIP - Malabala Government at Fort Bonifacio. Then had a conference. Met the Captain del Barrio and the people of 8 provinces and about 600 doctors of PGH led by Doctor Pascual recommending my brother Dr. Pacifico Marcos for the position of Chairman of the Medical Care Commission. Then met with the Ivesales group to look into the Chronicle and ABS-CBN malicious distortions of news and mischievous commentaries. We may have to organize a new corporation to publish the Bulletin, Sundayway — and even also the Evening News, Republic and possibly INBC which includes the Channel 11.
