MALACAÑAN PALACE
MANILA

Friday

Left by car 6:15 AM for Caulubang and arrived after 50 minutes. Played golf up to 9:20 AM. Hit two over par 38. Putting well. Sink almost every green in one.

Inaugurated the Filsyn or Filipinas Synthetics which is in Sta Rosa and Cebuano in the very middle of the Caulubang Sugar Estate. This is the first Polyester factory both filaments and staples.

Returned at 1:00 PM and arrived at the palace at 1:40 PM.

Worked on the PCA needs, forestry rules and conservation, the Bangladesh problem, plywood manufacturers' concentration of exports in Parang and Davao City (Zona free), copper smelters etc.

Am preparing for the caucus with the congressional leaders at 10:00 AM and the Foreign Policy Council meeting on Trade with socialist countries (we must find new markets for our surplus eggs and coconut oil)
