Tuesday

MALACAÑAN PALACE

MANILA

We arrived at Nichols Air Base at 2:10 PM from Tuga. Weather fine and sunny.

Fished from 6:10 AM to 9:10 AM, visited Mabog, had lunch then left for Tuga by boat - I took the Sea Otter which is a 60ft converted Japanese fishing vessel.

Ordered the relief of Col. Balanon PC Commander of Flores Sur pending his investigation. And told Ben of Jucaris.

Reassessment of plans and orders and the HPA expansion in Northern Luzon

Had the doctors especially Dr. Canto check my pain on the left chest. EKG normal in Dr. Chuay. It is the flat muscle near the left chest, close to the ribs, below the pectoralis which was hurt by my fall water skiing on April 3rd, possibly compounded by uric acid in the blood, although it is normal at 4.2 so of blood examination near 15th. I will have an enzyme and uric examination in my blood tomorrow.

Dinner for Hank Greenberg of Phil Am.
