April 15, 1942

MALACANAN PALACE
Talaga Bay
Marbiles, Bataan

Saturday

After the review of the films taken of
Inulda's Russian visit, we went to the 777
where I slept at 12:30 PM.

I was awakened at 5:00 AM for Dr. Kelly
Varca to take blood samples for angino, uric acid
and other examinations. The latest report was "Normal".

So it meant the pain on the left chest is
not due to any involvement of the heart but was
merely muscular.

We arrived at Talaga Bay at 7:00 AM
and I went water skiing at about 9:30. I was
hit by jellyfish ^{in the right eye} when I went into the water near
the pier to start to water ski. Calamine solution has
prevented its usual severe stinging and pain.
Bongbong and Regalito followed me, and the
son of Luis Escobar and Tony Dyfante.

Took a long nap up to 5:00 PM. Then saw Inulda
and Bongbong and the others off to Ipana at 6:30 PM.

Frank Starr, on April 3, 1942, executed an affi-
davit implicating Col. Lind Aragon Angara and Bob
Yanaguchi of Los Angeles, California, in a plot to assassinate
Go on July 17, 1942. We are taking countermeasures.

MALACAÑAN PALACE

MANILA

Gen. Lee is sending Col. Uy of CIB and Col. Pella now in Washington, to follow up the leads in Los Angeles that Frank Stern can give since last month. Frank Stern says that Bob Yamaguchi has already chosen or obtained the services of a man for the job of assassinating me - a Mexican.

But we have placed Col. Angera under close surveillance.

Frank Stern was a former CIA operative imprisoned in Indonesia.

I also ordered the arrest of smugglers in Batavia who have contacted Col. Dumput, the Prov. Commander.
