MALACAÑAN PALACE  
MANILA

Conference on the retraining and  
re-activation of the officers specially having  
to do with the barriers and the towns.

Scolded the men a little as apparently  
the men in the field have lost their initiative  
and are not as dedicated as they used to.

Then there must be an information campaign  
not only for the people but for the government  
officers and employees likewise. They cannot be  
motivated unless they are well informed

and take over. And they are  
receiving the expenses which have resulted  
in no progress in propaganda work.

The Rapier was over Manila on  
the night TKO - he was. Broadcast on  
satellite TV over KBE channel 11.

Left 1 - 4:30 PM. Resting from  
bored with fatigue.

When I talked to Sen Buckley, I told  
him that the visit of Pres. Nixon may ease  
tensions generally but it will not help in our  
primary problem — that of internal subversion.  
What I do not see is the real chance  
lessening their support for wars of liberation. On  
the contrary the detente may release resources  
of Red China for communists in countries like  
the Philippines.
