included the paper on the foreign policy
for the communist countries.

It is my intention to deliver this as a
speech before the Rotary International 301-A
tomorrow noon.

Talked to Inelda who called up at
4:30 AM (this morning) as she wanted to
clear her speech before the President. And she
leaves for Pampanga tomorrow. She is still
complaining of the cold. Still 10 below 0.

Met the Topkar people who are trying
to sell a Topkar jet for \$4.1 million to \$4.8
million. I do not believe we should buy this &
believe that we would have to repair the MIA first.

Then met some delegates and members of
the Senate and distributed the titles to the lands
of the Taal victims. The resettlement is in
Batangas.

Saturday

Spoke on the New Foreign Policy before
Frons. International 301-71 (Palanan, Mainid
Presbitero, Calanduyan to Manila).

I thought it excellent.

It has started to rain rather hard.
We were rained out at golf at 5:00 PM.
There is a depression east of Samar and
the same thing it has been raining for
days.

Issued the company grade promotions
in the AFP

and worked on prices.

Jose Alberto Cortez, however, and
work on the budget.
