MALACAÑAN PALACE  
MANILA

The regular session of Congress has adjourned and I have called it to a special session. The appropriation act has not even been acted upon.

I addressed the agricultural production technicians this morning at Malakalika Hall. "More than the weapons, the strength of the spirit. The x-factor for success is morale — the dedication, belief in one's fighting faith, the complete commitment."

Imelda suffered some pain this afternoon but she is well now.

I have ordered a review of the flight freedom granted to other airlines and a review of all public works programs and projects.

I am suffering from sore muscles either from over exercise or from the anti-inflammatory medicine given me for my right ear.
