MALACAÑAN PALACE

MANILA

Am waiting for the return call from London of Imelda who is supposed to have arrived there at about 7:00 PM Manila time. Kokoy Romuldez called up at 5:30 PM when I was playing golf.

Have been busy the whole day catching up on my paper work. Have to finish the listing of irrigation projects, highways, ports, schools, hospitals etc. for which funds have to be released.

And I am busy reassessing the situation on food production as ^{costing to} prices believe erratically.

Vegetables, milk, and other consumer items have gone up.

I am also reassessing the Communist activities: arson, robberies, ambushes etc. They seem to be succeeding in their operations and penetration of the barrios. I attach an intelligence report.
