

11:55 PM

After the dinner  
for the IRRI people  
and search for ~~the~~ <sup>Martinez-Burdin</sup>  
MALACAÑAN PALACE

2028

April 21, 1972

Friday

at 9:00 to arrive 9:30 AM

On board the ~~my~~  
helicoptered to IRRI for the 15 anniversary  
I spoke of the paradox of man, wanting to grow  
food while attempting to liquidate each other. I ended  
with the hope that ~~the~~ where the politicians, the  
statesmen and world leaders have failed, they may  
succeed — to unify man into one human family.

Then helicoptered to the P.C. circle at 10:30 AM  
after the speech of Dr. Robert Chandler arriving at 11:00 AM  
at the SSS building to speak up to 1200 before the  
Labor-Management Congress.

Back to the Palace and the inauguration of the  
Population Foundation Center at 4:30 PM. Also ~~the~~  
and I delivered a speech.

Back at 8:20 PM. And dinner at 8:00 PM  
after I had asked Imelda to rest for about an hour.  
We have Mariola (daughter of Juan de la C  
Martinez-Burdin grand daughter of Generalissimo Franco)  
on board but Imelda had to be brought to bed so  
she was beginning to feel a heaviness of the abdomen  
and she is POSITIVE for pregnancy with the  
Gravidex test. She took an anti-spermicide pill - a  
Spectrin during dinner. And she has just been given  
a Progesterone injection.

We go to Talaga for some water-skiing.
