MALACAÑAN PALACE
MANILA

I have been busy on the state of the nation address. Up to now the page proof is not yet printed. It was to be finished at midnight. I asked the proof.

But we are busy cutting down the written text which may be about 150 pages to a 30 minute text. That would be about 20 pages. Right now it is 50 pages.

The 16th year operations among other papers (including a new tariff increase as well as the provisions in the AFP and the judiciary) kept me occupied up to 2:00 PM.

I missed mass as after a bag, proof and a meeting with the Malacañan bag when I gave them a preview of the State of the nation address and see. Pura Enrique, Gen. Ramos and Gen. Ramos. I attended to the printing

proofs. See. Pura Enrique reports Cebu City is logging away all national agencies from the city. And the casinos and other places of illegal amusement abound in the city.

While I personally expect to trouble
or Malacañan in the coming session tomorrow,
we have been warned of such possibility.

I attach a sample telegram from a
certain city - Romero as well as the plan for
tomorrow.
