MALACAÑAN PALACE
MANILA

Carile Naval Base for the launching of a 65-ft ferro-concrete boat, a station hospital, quarters and officers club where we had lunch.

There is an inspection of Sangley Pt. The Admiral's quarters have been fixed to accommodate the First Family.

I have ordered the emphasis of planning and training on:

1. Missile capability of small craft
2. Submersibles (one has two now)

And I have also ordered the lengthening of the 8,000 ft. runway of the base (Sangley) to accommodate jet fighters and 4-engine jets.

Conference on board the 777 on repatriation with Sen. Bako and Chairman Mangasera.

Amb. Byronda still feels they will win the war in South Vietnam.
