I'm suffering from pain on the right foot (the right side of the ball) and I bump when I walk. Although I have loose bowel movement and a little nausea I have had to take colchicine and butaprodine.

It subsided in the afternoon. But I have been advised to keep my weight off my feet.

Col. Ramon Jimenez has seen me this morning and tonight to tell me that Delegate Quintero wishes to get out of the country for good to stay in Japan. As Rich Jimenez put it in Pasacao last Saturday he wishes to raise the white flag. I have asked him to say nothing but the truth to the effect that we (Childs and I) had told him we had not authorized anyone to give money to the delegates.

But apparently the technicians are watching him and a certain Teresa Rivera told Mrs. Tarsile Quintero not to allow Delegate Quintero to lose heart, this afternoon. So Rich had to send his brother Ramon to Quintero to avoid surveillance. But he (Rich) will see Quintero tomorrow at 1:30 PM and see me at 4:00 PM.

Ely Panatong, an alleged youth leader wrote the Committee on Privileges of the Concom that he was aware of the "Papeles" revealed by Delegate Quintero as he belonged to the group under Dr. Guinio de Vega as a Technical Assistant to the office of the President, and that he was asked to deliver two envelopes full of money to Delegates Yaneza and Sumant but he refused although several days later these two delegate received the envelopes from Dr. De Vega in his office.

He was the border of Stream which does not have a following, was Technical Assistant until he was dismissed June 1st for not reporting to the office. He is a blackmailer.

Apparently he has been induced to fabricate evidence by Concom Pres. Macypagal who tried to have another man sign a similar affidavit.

I may see Chris Pocos on his birthday on the 29th. Executive Secretary Alex Melchor is preparing the meeting.
