Delegate Aguing Yngoye located the letter of Delegate Quintero, the author of the exposé. I attach the duplicate which is self-explanatory. It shows how he has been borrowing money because of "serious financial difficulties."

At the same time I attach one of the copies of the tabloid that has been circulated in the Council.

Quintero arrived this afternoon. Ex-Pres. Macapagal met him at the breakwater before anybody could talk to him. He then went to the Council, delivered a speech blaming the Navy for demanding P2,000 to clear the ship because he was riding in, for holding him from going to visit his ailing brother. Then he was brought to San Juan de Dios Hospital and not the Veterans Memorial Hospital and only liberals allowed to see him. His blood pressure is supposed to have reached 210.

Attended the Memorial Day Ceremonies at 4:15 PM.  
And met with Air Force officers led by Gen. Rencado on their contingency plan.
