The Bulletin (above) carried a story of the "Aug Bayan" the Communist paper's editorial charging "an alleged plot of the U.S.- Marcos clique" to undertake senseless bombings and shootings and to disrupt public meetings of both the Nacionalista and Liberal parties during the Marcos campaign period of 1973, further stating the Communist paper is saying these activities were in preparation for a proclamation of martial law.

What about the front organizations, the demonstrations, the open call to La Fuerza, the attacks on the Armed Forces in possession, Zamboanga, Pangasinan, Zamboanga, Iloilo, Surigao, Marikina, Baguio, Manila, Cebu, Mindanao, etc.

The communists are schizophrenic and do not know what they want.

Sen. George A. Brown, a US friend here, is chairman of the Subcommittee on Foreign Aid which he says is not the proper body now. I briefed him on the State Department and US Embassy attempt to undertake the U.S. policy of Communism to the Philippines.

not gone in museum

Prime Minister Dr. Helmut Kohl of
'Rheinland - Galtz of the Federated States of
Germany paid a courtesy call on me. He is
descended from the Electors of the Rhineland
Palatinate and Vice Chairman of the
Democratic Union.

I felt he is a politician, not a statesman.

Worked out with Bongbong's schedule this
morning.
