Imelda is still in pain. They pulled out the last lower right molar at about 5:30 PM at the clinic of Dr. Primo Gonzales. Attending were Drs. Yap, Sagala, Piani and the dentists Drs. Gonzales, Pungulung and Manasico.

She had to have five injections of local anesthesia. But there is pain up to now. I hope the pain stops tomorrow.

We talked to Bongbong <sup>in London</sup> and Dr. Romaldez in New York.

I am busy on the outline of the second book. I attach it and my notes.
